# MY READING LIFE

Fill in each box with a book that shaped or changed you throughout your life. See if you can list them in chronological order starting from your childhood.

The diagram features a central horizontal line with arrows at both ends, representing a timeline. Above the line, four empty rectangular boxes are arranged horizontally. Below the line, three empty rectangular boxes are arranged horizontally. Vertical arrows point downwards from each of the four boxes above the line to the line itself. Vertical arrows point upwards from each of the three boxes below the line to the line itself. This layout allows for a total of seven book titles to be listed in chronological order along the timeline.
