Mindfully Implementing Research-Based Practices

We are bombarded with information on the “best” way to teach. As literacy educators and leaders, we make decisions that impact the education, and ultimately the lives, of students. We know we are supposed to use “research based practices,” and make “data driven decisions,” but what does that really mean, and how do we know? How do we make sound decisions, and support and advocate for those decisions with others?

Saturday- March 3rd: Pernille Ripp

Passionate Readers- The Art of Reaching & Engaging Every Child

What can we, as the educators who teach the future generation of readers, do to create more engaging reading experiences? In this session, based on the book *Passionate Readers: The Art of Reaching and Engaging Every Child*, we will re-discover the keys of creating a community of readers, focusing on teacher reading identity, classroom environment and library. This session is sure to inspire!

Saturday- April 28th: Peg Grafwallner

How to Increase Rigor in Your Writing Program (Sponsored by WSRA)

In this presentation, we will define rigor and authentic writing, showing participants how to give students opportunities that move beyond the basic writing format. We will focus on writing goals that demonstrate how to think critically, creatively, and credibly. Let’s take the mystery out of writing and empower all students toward writing success.
